Why Agile on the Green?

This year, more than 40,000 women will die of breast cancer in America; more than 530 will die from the disease right here in our community.

Agile on the Green was founded in 2004 by Tricia Dempsey, a nine-year breast cancer survivor and CEO of Agile, one of the Southeast's fastest growing IT staffing and consulting firms.

Agile on the Green gives you the unique opportunity to network with Atlanta's top technology leaders while playing for a great cause – Susan G. Komen for the Cure – Greater Atlanta Affiliate. Komen Atlanta funds life saving breast cancer screening that is needed so that women can detect the disease early and survive – 98% of all breast cancers found in the early stage have a five year plus survival rate.
